Research Implementation Award

Research Implementation Award This team award recognises the implementation of research and evidence-based practice, which has led to significant improvements in patient centred outcomes and the effectiveness, access to, or efficiency of health services.

Entry name

Nomination Overview

200
words

Please provide an overview of this nomination, including a summary of how the entry addresses the overarching Research Excellence Awards criteria.

- **Quality** – scientific merit of a piece or body of research.
- **Productivity** – activities and outputs, including research publications, work and training, supervision, conference presentations, patents, inventions and media communications.
- **Impact** – the demonstrable contribution locally, nationally and/or globally that the research outcome makes to society, services, policy, health or quality of life.

Quality

300
words

– demonstrated leadership and excellence in knowledge translation and/or the implementation of research, which has improved care of patients in Metro North.

Productivity

300
words

– evidence of activities and outputs related to the implementation of research (e.g. improvements in processes, products and procedures, training and supervision, conference presentations and/or publications). Nominations that outline how the initiative has demonstrated growth, scalability, and sustainability and has supported a culture of research and innovation in Metro North will be highly regarded.

Impact

300
words

– the contribution and measurable results that the initiative has had on improving patient care and/or patient experience with evidence of process improvements or the discontinuation or de-implementation of lower value approaches. Nominations that provide demonstrable evidence of how the initiative and/or lessons have been spread to other services or facilities will be highly regarded.
