Partnering with Consumers in Research Award

Partnering with consumers in research This special award recognizes the value of excellent consumer engagement in Metro North research.

Nominations for this category must demonstrate the value of consumer contributions to research that is embedded in Metro North, leading to demonstrable improvement in health outcomes or research for Metro North patients and the community.

Nominations will be reviewed by an expert panel of Consumers, the Metro North Research Excellence Awards Committee, and Metro North Executive.

Entry name

Nomination Overview

200 words

Please provide an overview of this nomination, including a summary of how the entry addresses the overarching Research Excellence Awards criteria.

- **Quality** – scientific merit of a piece or body of research.
- **Productivity** – activities and outputs, including research publications, work and training, supervision, conference presentations, patents, inventions and media communications.
- **Impact** – the demonstrable contribution locally, nationally and/or globally that the research outcome makes to society, services, policy, health or quality of life.

Partnering with Consumers in Research

500 words

This special award recognizes the value of partnering with consumers as a driver for research excellence in Metro North.

This is a consumer-focused award, and nominations must demonstrate how the consumer has contributed to research that is embedded in Metro North, leading to demonstrable improvement in health outcomes or research for Metro North patients and the community.

Please describe the consumer engagement methods used in this research (recognising engagement can include informing, consultation, involvement, collaboration and community-led or co-design) and how this engagement has informed the research, for example through improvements in research design or outputs, or improved health outcomes for patients and the community. Specific examples of research collaboration, research co-design, involvement in research activities and/or dissemination of research outcomes are encouraged.
